BORA BORA

FEATURES & SPECIFICATIONS

COLOR: BORA BORA

This color is achieved using complex multi-step reactive stains which naturally change the color of the tannins in the wood. Color variation is purposeful.

SPECIES: EUROPEAN OAK

Europe is known for its responsible selective forestry practices. The region where this wood originates produces highly sought after oak known for its tight grain and high tannin content.

THICKNESS: 9/16" (3.2mm Wear Surface)

WIDTH: 9.5"

LENGTH: 8' (80% Full Lengths)

TRIM: Stair Nose, Reducer, Square Nose, and T-molds

FINISH: BONA NATURAL UV

Bona Natural UV "The Next Generation of Protection for Pre-finished Wooden Floors"

- WEAR & SCRATCH RESISTANCE
- STAIN RESISTANCE
- LOOK AND FEEL NATURAL
- 5% MATTE SHEEN
- NO SPECIAL MAINTENANCE

CONSTRUCTION

3-layer engineered construction, lab balanced for industry leading stability in all environments.

The Hevea hardwood core is a "re-use" material saving resources while also being a highly stable species.

- GLUE DOWN, NAIL OR FLOAT
- GUARANTEED OVER HYDRONIC HEAT
- INSTALL ABOVE OR BELOW GRADE

RESIDENTIAL WARRANTY

25-Year Finish - Lifetime Structural

COMMERCIAL WARRANTY

5-Year Finish - 5-year structural

RESPONSIBLE PRACTICES

We go to great lengths, as do our manufacturing partners to make sure responsible forestry, Lacey Act compliance, indoor air quality (Floor Score), ultra low waste and material re-use are integrated into our products from start to finish.

INDUSTRY PARTNERS

- National Wood Flooring Association
- American Society of Interior Design
- Floor Score Certified
- Green Building Council
